

Roses

Bill Reid Rose (*Rosa 'Bill Reid'*)

Features: Named after the artist, the Bill Reid rose is reminiscent of the medium which he often used: gold. This repeat blooming shrub is disease resistant and quite drought tolerant once established. The bright yellow of the blossoms does not fade in the heat of summer. It is excellent in a mixed border.

Light: Sun
Zone: 3
Mature height: 3 ft
Mature spread: 4 ft

Blanc de Coubert Rose (*Rosa rugosa 'Blanc de Coubert'*)

Features: This large white rose is very fragrant. Its first blooms appear in mid-June and continue heavily to late July and lightly until frost. It is a robust grower and a valuable choice for stabilizing slopes or creating hedges or large massed beds.

Light: Sun
Zone: 3
Mature height: 3-5 ft
Mature spread: 4-5 ft

Campfire Rose (*Rosa 'Campfire'*)

Features: This rose was named to honour a painting by Canadian artist Tom Thompson. Yellow and red buds open to yellow flowers edged in dark pink. As the season progresses, the pink becomes more prominent. Blooms are abundant from spring until frost. The foliage is a deep glossy green with delicate red edging.

Light: Sun
Zone: 3
Mature height: 3 ft
Mature spread: 3.5 ft

Canada Blooms Rose (*Rosa 'Canada Blooms'*)

Features: Showy fragrant pink flowers appear at the ends of the stems in early summer to mid-fall on this upright stemmed rose. Dark green foliage throughout the season tends to remain dense right to the ground.

Light: Sun
Zone: 4
Mature height: 3 ft
Mature spread: 3 ft

Champlain Rose (*Rosa 'Champlain'*)

Features: From Agriculture Canada's Explorer series, this semi-double rose blooms continually from mid-summer to frost. Velvety red blooms are 2.5 inches across and are borne in clusters of up to 6. This variety blooms mostly on new wood and should be pruned back by 1/3 each spring to rejuvenate.

Light: Sun
Zone: 3
Mature height: 2.5-3 ft
Mature spread: 2.5-3 ft

Cuthbert Grant Rose (*Rosa 'Cuthbert Grant'*)

Features: Large double flowers bloom a rich dark red from mid-June to late summer. They are lightly fragrant. Blossoms appear in clusters of 3-6 at the tips of the new growth. This rose is noted for its disease resistance.

Light: Sun to part shade
Zone: 3
Mature height: 2.5-3 ft
Mature spread: 2.5-3 ft

Emily Carr Rose (*Rosa 'Emily Carr'*)

Features: Named after noted Canadian artist, this upright shrub is covered with clusters of large 2 1/2 inch deep red blooms from mid-June until frost. It is quite drought tolerant once established but better flowering is seen when watered weekly.

Light: Sun
Zone: 3
Mature height: 3 ft
Mature spread: 4 ft

Hansa Rose (*Rosa rugosa 'Hansa'*)

Features: For many, this variety represents the term "hardy rose". One of the most enduring appeals of 'Hansa' is the heady draught of fragrance on a still summer evening. Large mauve-red flowers with an unusual clove scent bloom from mid June to late July. Later, a profusion of orange rose hips appear which add nice winter interest.

Light: Sun to part sun
Zone: 2
Mature height: 4-6 ft
Mature spread: 4-5 ft

Henry Kelsey Rose
(*Rosa 'Henry Kelsey'*)

Features: The highlight of this winter hardy rose is its trailing and spreading habit which makes it a good candidate for training upright on a fence or trellis. The blooms are medium red and come in clusters of 9-13. A nice spicy fragrance is another wonderful trait. This rose blooms in early summer and repeats in late summer.

Light: Sun
Zone: 3
Mature height: 6-7 ft
Mature spread: 6 ft

Hope for Humanity Rose
(*Rosa 'Hope for Humanity'*)

Features: Beautiful blood-red flowers are produced starting in late June, from overwintered buds and continuing on the current seasons growth. Flower buds are pointed and a deep red wine colour. They appear in clusters of 2-15. Flowers are slightly fragrant, double, cup-shaped and average 3" in diameter.

Light: Sun
Zone: 3
Mature height: 2-3 ft
Mature spread: 2-3 ft

JP Connell Rose
(*Rosa 'JP Connell'*)

Features: This rose is a fragrant upright shrub with double lemon-yellow 2-3 inch flowers that bloom in June and recurrently throughout the rest of the season. The flowers become cream coloured as they mature. The abundant dark green glossy foliage grows on nearly thornless canes and is disease resistant.

Light: Sun
Zone: 3
Mature height: 4 ft
Mature spread: 4 ft

John Cabot Rose
(*Rosa 'John Cabot'*)

Features: This is a hardy climbing rose that flowers freely and repeatedly on strong arching canes that can reach 6-8 ft. high. Its clusters of pinkish-red flowers are moderately fragrant and bloom continuously from summer until frost. When left as a shrub it will reach a height of about 6 ft.

Light: Sun
Zone: 3
Mature height: on a trellis 6-8 ft
Mature spread: on a trellis 4-5 ft

John Davis Rose
(*Rosa 'John Davis'*)

Features: Stunning fragrant double pink flowers with yellow eyes appear along the stems from spring to late summer. Dark green foliage throughout the season turns yellow in fall. The brick red stems can be quite attractive. With its extended bloom and disease resistance, many consider it one of the best covers for arbours and fences.

Light: Sun
Zone: 3
Mature height: on a trellis 6-8 ft
Mature spread: on a trellis 4-5 ft

Morden Belle Rose
(*Rosa 'Morden Belle'*)

Features: This hardy and vigorous shrub rose has medium pink double flowers covering it for the entire season. Deep glossy green foliage provides a stunning contrast and red hips are displayed in the fall. This plant is disease resistant.

Light: Sun
Zone: 2
Mature height: 4 ft
Mature spread: 3 ft

Morden Blush Rose
(*Rosa 'Morden Blush'*)

Features: This cultivar is very floriferous and has the longest bloom period of the Parkland roses, flowering from June to freeze-up. Attractive flower buds open to a flat flower with the inner petals infolded to form a button type centre. Petals are light pink in cool weather & ivory to white in hot weather.

Light: Sun
Zone: 3
Mature height: 1½ to 2½ ft
Mature spread: 1½ to 2½ ft

Morden Centennial Rose
(*Rosa 'Morden Centennial'*)

Features: A hardy floriferous rose, with the main flush of flowers in June and again during August and September. Its name commemorates the centennial of the town of Morden in 1980. Flowers are double, medium pink, 3 inches across in clusters of 2-4 with a light fragrance.

Light: Sun
Zone: 2
Mature height: 3-3 ½ ft
Mature spread: 3-3 ½ ft

Morden Fireglow Rose
(*Rosa 'Morden Fireglow'*)

Features: This variety offers an orange-red, semi-double flower with a slight fragrance and a continuing blooming habit from late June to frost. It is unique among the shrub roses in being a colour so close to true red.

Light: Sun

Zone: 3

Mature height: 3-3 ½ ft

Mature spread: 3-3 ½ ft

Morden Ruby Rose
(*Rosa 'Morden Ruby'*)

Features: Introduced in 1977, this variety is a sister of Adelaide Hoodless. The flowers are double, ruby red and long lasting, with a slight fragrance. Flowering begins in mid-June and continues until frost. Its resistance to powdery mildew and black spot is moderate to good.

Light: Sun

Zone: 2

Mature height: 3-4 ft

Mature spread: 3-4 ft

Morden Snow Beauty Rose
(*Rosa 'Morden Snow Beauty'*)

Features: A vigorous variety with attractive pointed buds opening to dazzling, snow-white single flowers, recurring throughout the summer. Leaves are deep glossy green and the shrub is dense and well shaped. This is an excellent variety for a long season of flowering.

Light: Sun

Zone: 2

Mature height: 4-5 ft

Mature spread: 3-4 ft

Morden Sunrise Rose
(*Rosa 'Morden Sunrise'*)

Features: Semi-double flowers with wavy petals and orange stamens are an ever changing kaleidoscope of peach, coral, yellow and cream hues. Fragrance is very slight. First bloom is amazing with nice rebloom continuing until frost. The compact, bushy plants have dark green foliage and are quite disease resistant.

Light: Sun

Zone: 3

Mature height: 2-2 ½ ft

Mature spread: 2-2 ½ ft

Never Alone Rose
(*Rosa 'Never Alone'*)

Features: This very compact shrub has continuous red and white blooms, rich, glossy, dark green foliage and exceptional disease resistance. Part of the royalties from this rose benefit the Never Alone Foundation (NAF), a nationally registered charity committed to improving the lives of people affected by cancer.

Light: Sun

Zone: 2

Mature height: 2 ½ -3 ft

Mature spread: 2 ½ -3 ft

Pink Pavement (Foxi) Rose
(*Rosa 'UHLater'*)

Features: This rose is perfectly suited for boulevards or along sidewalks because it blooms profusely all summer regardless of heat, drought or poor soil. The semi-double, very fragrant deep pink flower blooms repeatedly from June to hard frost ending with bright orange fall foliage and dark red rose hips.

Light: Sun

Zone: 2

Mature height: 2-3 ft

Mature spread: 2-3 ft

Purple Pavement (Rotsmeer) Rose
(*Rosa 'Rotsmeer'*)

Features: This rose is perfectly suited for boulevards or along sidewalks because it blooms profusely all summer regardless of heat, drought or poor soil. Repeat blooming large clusters of purple-crimson blooms are semi-double and fragrant. Dark green leaves turn yellow in fall. The red hips are displayed from mid to late fall.

Light: Sun

Zone: 3

Mature height: 2-3 ft

Mature spread: 3-4ft

Yellow Pavement (Rugelda) Rose
(*Rosa 'Rugelda'*)

Features: This rose is perfectly suited for boulevards or along sidewalks because it blooms profusely all summer regardless of heat, drought or poor soil. This very fragrant double yellow with a pink fringe flower opens from red buds. Rose hips are dark red and fall foliage is bright orange-yellow

Light: Sun

Zone: 2

Mature height: 2-3 ft

Mature spread: 2-3 ft

Snow Pavement (Schneekoppe) Rose
(*Rosa 'Scheekoppe'*)

Features: This rose is perfectly suited for boulevards or along sidewalks because it blooms profusely all summer regardless of heat, drought or poor soil. Stunning white flowers with shell pink overtones and yellow eyes are very fragrant. Dark green leaves turn yellow in fall. The red hips are displayed from mid to late fall.

Light: Sun
Zone: 3
Mature height: 2-3 ft
Mature spread: 2-3 ft

Red Leaf Rose
(*Rosa glauca*)

Features: Grown for the colour contrast of the foliage, the young leaves are distinctly reddish-purple changing to greenish-blue with a purple tint. Flowers are pink, single and petit, produced in one heavy flush in mid-June. Autumn colour is red-purple with orange hips. Canes are upright and arching.

Light: Sun
Zone: 2
Mature height: 4-7 ft
Mature spread: 4-5 ft

Theresa Bugnet Rose
(*Rosa 'Theresa Bugnet'*)

Features: One of the easiest and most reliable roses to grow, this rose develops double, medium-pink, very fragrant blooms that come in one large flush in early summer and then sporadically until frost. This beautiful vase-shaped plant with light green foliage has attractive red canes for winter interest.

Light: Sun
Zone: 2
Mature height: 5-6 ft
Mature spread: 5-6 ft

Winnipeg Parks Rose
(*Rosa 'Winnipeg Parks'*)

Features: This rose is smothered in double-red flowers which later fade to a dark pink-red. It begins to bloom in mid-June and continues till first snowfall. Leaves develop an attractive reddish tinge in cool weather.

Light: Sun
Zone: 3
Mature height: 2-2 ½ ft
Mature spread: 2-2 ½ ft
